

Smaart v.8 インストール手順

1、my.rationalにログイン

rational acoustics about us news smaart smaart training support forums store contact us my.rational Search go

My.Rational

Smaart software registration is managed through a user account at our online registration site at my.rationalacoustics.com.

From within your account, you can manage registration, installation & activation for Smaart v.6 or v.7 software products. You will also have access to the most up-to-date installers for Smaart v.7 from within your account.

If you purchased Smaart via our online store and created a store account, your account name and password for the store WILL NOT work at the my.rationalacoustics.com license management site. The 2 systems are not linked. You will need to create a separate account at my.rationalacoustics.com in order to register & activate your Smaart v.7 software.

Login Click here to log in to your my.rationalacoustics.com account or create a new account.

Please Note: If you previously had an account at my.eaw.com for a Smaart v.6 license, your my.rationalacoustics.com login information is the same. Your account name is your e-mail address and your password is whatever you chose (however you can change both from within your account after logging in).
